

BJA Building Analytical Capacity Crime Analysis Webinars

The International Association of Directors of Law Enforcement Standards and Training (IADLEST) provides a series of live interactive online workshops in which agency teams of executives, commanders, and analysts create customized action plans to address specific crime analysis challenges within their departments. The webinars assist top commanders and their teams in identifying how to support actionable analysis within their own departments and use that analysis to drive operations. The topic areas are consistent with the IADLEST Intensive 2-Day Workshops.

Wednesday, February 21, 2018 3:00 PM - 5:00 PM EST

ANTELOPE VALLEY CRIME FIGHTING INITIATIVE: A CASE STUDY

Course Information:

The Antelope Valley region is the largest geographical area within the Los Angeles County Sheriff's Department's jurisdiction. The area's population ballooned in the 1980s and 1990s due to massive residential and commercial development. As a result, the crime rate steadily increased. The demographics changed drastically due to the migration of south Los Angeles gangs taking a stronghold within the area. LASD assigned personnel to obtain necessary resources, analyze the problems, devise a plan, and coordinate the crime reduction and community policing efforts. The project became known as the "Antelope Valley Crime Fighting Initiative" (AVCFI). The AVCFI was the recipient of the 2010 Herman Goldstein Award for Excellence in Problem-Orienting Policing. This presentation will be a case study highlighting:

- Hot spot policing
- Problem oriented policing
- Intelligence led policing
- Crime reduction strategies
- Establishing primary objectives
- Public/Private partnerships
- Gang violence
- Multi-agency collaboration

Instructor:

Annie Mitchell, Crime Analysis Supervisor, Los Angeles County Sheriff's Department
