

# IADLEST

## National Training Program

### Want to Implement the DDACTS Model?

**WHAT**

Data Driven Approaches to Crime and Traffic Safety workshop is designed to show agency executives and officers how to use data collection efforts to manage and deploy strategic resources that will decrease traffic crashes and crime in your jurisdiction.

**WHEN**

This course is 12 hours long  
Day 1 - 8:00am - 5:00 pm  
Day 2 - 8:00am - 12:00 pm

**WHERE**

IADLEST will bring this Nationally Certified workshop directly to **YOUR** agency and train **YOUR** personnel to effectively use the model with **YOUR** current resources.

**HOW**

If you are interested in learning more about the DDACTS model or hosting a workshop, contact  
Peggy Schaefer  
peggyschaefer@iadlest.org  
Registration Fee = \$7500 for unlimited officers.

**WHY**

“The Everett Police Department has worked hard to use timely crime and crash data to engage our officers in the right places at the right time. We have embraced the DDACTS model because we have witnessed firsthand the ability of our data analysts to guide us to the areas we know we can make an impact in. DDACTS has helped make the City of Everett a safer place to work, live and play. Working without the DDACTS model would be like driving a car at night without headlights.”  
~Chief Steve Mazzie,  
Everett, MA Police Department

**WHO**

Agencies should send all personnel to the first 4-hour session to learn how the DDACTS model can work in your area. Then a smaller focus group continues the workshop to develop an agency specific plan.
