

THE INTERNATIONAL ASSOCIATION OF DIRECTORS OF
LAW ENFORCEMENT STANDARDS AND TRAINING (IADLEST)
PRESENTS:

Texas Department of Transportation (TXDOT) Microsoft Access® for Data-Driven Strategies Part 3 of 3: Reporting and Automating Processes

COURSE DESCRIPTION:

IADLEST in cooperation with TXDOT is offering a **FREE**, 3-part training series designed for new and seasoned analysts to learn the primary skills needed to practice effective and efficient data-driven processes. This training series focuses on the principles regarding data quality, data analysis, reporting, and evaluation and includes practical exercises relating to the process of organizing and maintain quality police data in Microsoft Access®.

CERTIFICATION CREDIT:

The training series has been independently reviewed and assessed to ensure it meets the "best practices" standards for law enforcement training and as such has earned the National Training Program (NCP) seal from IADLEST for quality. Therefore, these workshop eligible to submitted to TCOLE for CEU credit hours.

Students can attend all or just some of the segments as needed. Refer to individual workshop announcements for more detail or go to [Analytical Training Workshops](#):

Part 3 - Course Objectives: *Students will learn to conduct analyses via Microsoft Access®. Specifically, students will:*

1. Create actionable data-driven bulletins and other tools necessary for effective implementation and evaluation.
2. Create monthly data-driven reports for internal process evaluations.
3. Create monthly data-driven reports for impact evaluations.
4. Create monthly data-driven reports for community/media purposes.
5. Automate processes and create efficiencies, including reporting crash and crime efficiencies and establishing uniform, complete, timely, and accurate data reporting.
6. Establish best practices relative to information used to evaluate the implementation and impact of data-driven activities.
7. Apply automations and statistical significance to own agency data

Date:
Wed. Sept. 25th
8:00am to 4pm

Location:
Texas Municipal
Police Association
6200 La Calma
Austin, TX 78752

Register Today!

This training program was created by IADLEST with support from a Texas Department of Transportation grant in an effort improve the collection and utilization of quality crash and crime data necessary to successfully implement an effective data driven strategy to reduce crashes, crime and other social harms impacting a community. The opinions contained in the program are those of the creators and do not necessarily reflect the official position of TxDOT.

Instructor:

Dawn Reeby, Subject Matter Expert for IADLEST
