For those agencies not using PoliceOne Academy, they can access the training by going to <https://www.lexipol.com/coronavirus/> - again, it is 100% free. An individual can self-sign-up to get access to the training. If a Chief or Training Supervisor wants to make the training available to their entire department, that is free too. There is a tab titled **Organizational & Agency**, which they can fill out and someone from our staff will onboard their department their a roster, so the Chief or Supervisor can kick the training out as an assignment to all of their personnel.
