Brief description of webinar:

Have you ever been asked to develop a Training Course and weren't sure where to begin?

Don't worry, you are not alone! This month's webinar is the second of a five-part series where we will explore the "Design" component of the ADDIE course development model (Analysis/Design/Development/Implementation/Evaluation).

Together in a live "working" interactive workshop, we will work through some examples of the "Design" process that you can use in your own training design. Join us for a fun, interactive webinar that will give you a great overview of the process in an easy-to-understand format!

In this webinar focused on the "Design" phase, we will:

- Start with the end in mind by selecting assessment methods
- Examine different course formats
- Select an instructional design strategy to develop your course
