The purpose of the National Decertification Index (NDI) is to serve as a national registry of certificate or license revocation actions relating to officer misconduct.

The NDI currently contains 29,000 PLUS actions reported by 45 agencies.

The NDI is a pointer system only. There are no records contained in the NDI. Records are housed in participating state government agency databases and should be verified with the contributing authority. Inclusion in the NDI does not necessarily preclude any individual from appointment as an officer.
